Adventures with Tip & Oh

B.O.O.V. INSTRUCTIONS

Played similarly to the old game M.A.S.H., B.O.O.V. is a fun way for you and your friends to find out what their B.O.O.V. story is!

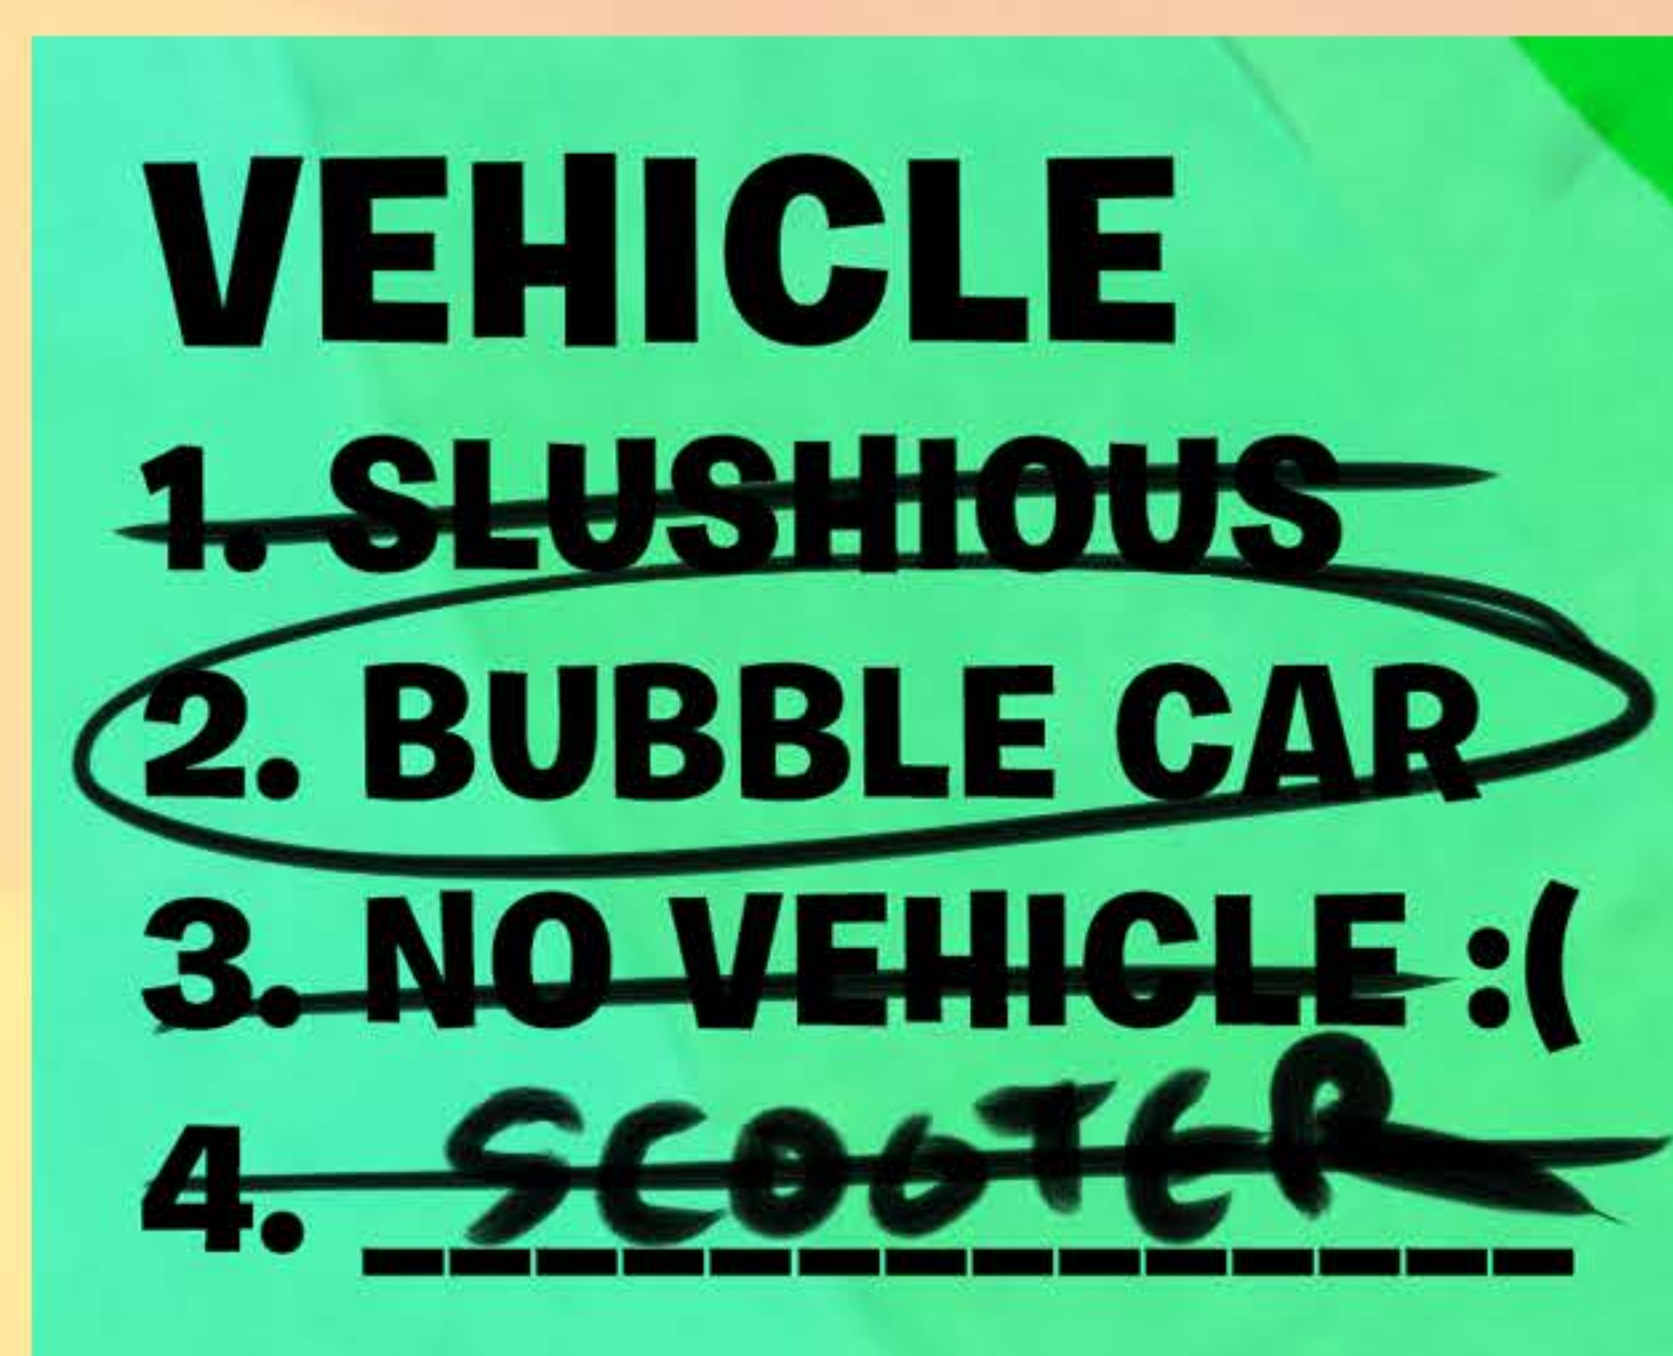

What you need: A pen and a friend!

How to play:

1. Fill in the blank lines in each category with a fourth option of your choosing! (The sillier the better!)
2. Tell your friend to close their eyes while you draw a spiral in the middle of the page (as shown below). Continue drawing the spiral until your friend says "STOP." Your friend can open their eyes now!
3. Beginning on the outside of the spiral, count the number of lines you drew (see below). It may be helpful to draw a line through the center of the spiral and count how many times your line crosses through the spiral (as shown below). Once you've counted, write your friend's magic B.O.O.V. number down!

4. Count each option in each category until you reach the magic number! Starting from the top center category (which is the "HOME" category), you will move clockwise, counting each option in each category. Start with Boovsland (then count Outer Space, On Earth, Venus, each best friend, each job, each vehicle, and each pod) until you reach the magic number.
5. Cross off the option you land on. For example, if your magic number is 8, you would land on the 4th option in the category "Best Friends." That option would be eliminated. Continue around the page starting your count over with the option that is after the one you just crossed off. As you continue counting around the page, be sure to skip over previously crossed off options.
6. When you've crossed off three options in any category, the option left is now part of your friend's B.O.O.V. story! Circle the option that is left in each category.

7. Use the final options in each category to tell your friend's B.O.O.V. story! For example, your friend's story could go something like this:

"You will live in Boovsland with your best friend Sharzod! You will drive around in Slushious and have only 1 pod!"
